The Mustard Seed

Light a candle and remember the presence of God is with you. Lay out the yellow felt underlay.

Jesus told us sacred stories called *parables*. Sacred means that something is extra special. Jesus was extra special.

The stories Jesus told were messages about how to love God and love each other. Let us wonder how this parable helps us love. (pause)

*Place the mustard seed at the bottom of the yellow felt in the middle.*

Imagine a place where everyone can feel God’s love. That may be hard to imagine, but Jesus once told a story a parable to help us imagine such a place.

*Lay out the green tree on top of the mustard seed.*

Jesus began by saying that the place of great love starts with a very, very, very, very small mustard seed. Even though it is very small it can grow to become a large plant if people take care of it. (Taking care of a plant includes water, sun, and a little bit of care.)

Very, very, very, very small mustard seed

When the once very, very, very, very small mustard seed has grown, it can be a place that protects others.

*Share the nests and birds with each person in the family.*

It becomes a home where many different birds can live with their families.

*Have everyone place a nest and a bird in the tree.*

Homes are places where we can feel protected and know God’s love.

Diagram
Wondering with God’s Story

I wonder...
... if the birds have names?
... how many birds can live in this tree?
... if the birds feel safe in this tree?
... where this place is?
... how such a small seed can become a tree?

Working with God’s Story
1. Have each person retell the story without reading the words. Just use items.

2. Find the story in your Bible and highlight it. You can also look in a Storybook Bible or online.

3. Ask the wondering questions more than once. Dinner? Car? Bedtime?

Check the “Weekly Faith FITness Plan” card.

The Mustard Seed

Come close to this story/parable of Jesus.

Matthew 13:31-32
(Common English Version)

Jesus told them another story: The kingdom of heaven is like what happens when a farmer plants a mustard seed in a field. Although it is the smallest of all seeds, it grows larger than any garden plant and becomes a tree. Birds even come and nest on its branches.
1. Lay the green tree on the yellow felt. (Can you roll it up in your hand and make it grow?)
2. When using the mustard seed (which is very, very, very, very small), place the seed under the bottom of the green tree.
3. Have each family member put their nest in the tree.
4. Have each person have their birds fly to their nest/home.

Now you are ready to share this parable.

I wonder if the story has all it needs? Can you tell the story differently?

More Wondering... I wonder...

... how many birds have nests in the tree?
... do birds share their nests?
... if a bird has more than one nest?
... if there are nests without birds?
... if there are birds without nests?
Family Prayer
There are so many ways to pray. This week’s prayer challenge is to write a family prayer that shares with God about how a small moment made a big difference.

Here is a moment(s) that made a big difference,

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________

Let us remember you make a difference, God.
Amen.
